Subject:

Course Type:

- advanced computer science
- advanced computer science and information technologies management
- computer science
- computer science and computer systems
- computer science not elsewhere classified
- computer security systems
- computer servicing
- computer simulation
- computer studies

Our CourseX thesaurus contains over seven and a half thousand terms across all subject areas.

Selected term plugged into thesaurus. Codes found for the exact term, narrower terms and wider terms.

Computer science
Wider Terms
information technology and information
Narrower Terms
applied computing
computational science foundations
computer architectures and operating
systems
computer hardware
computer systems
computing methodologies
displays and imaging
games
human-computer interaction
etc...

If you have an XCRI-CAP feed we can use that as the basis for your course information. If not, we can transform your course information into XCRI-CAP. Ask for XXP services for more information.

We will also tailor the codes on your course information to provide the best possible results.

Codes looked up in course information.

Courses which contain the exact term will be returned at the top of the search results, with less relevant courses returned further down the list.

Returned courses sorted by how close they are to the original term.

Title

- [Algorithms, data structures and computability](#)
- [BSc \(Honours\) Computing & IT and a second subject](#)
- [BSc \(Honours\) Computing and IT](#)
- [Certificate of Higher Education in Computing & IT & second subject](#)
- [Certificate of Higher Education in Computing and IT](#)
- [Diploma of Higher Education in Computing & IT & second subject](#)
- [Diploma of Higher Education in Computing and IT](#)
- [Diploma of Higher Education in Computing and IT Practice](#)
- [Foundation Degree in Computing and IT Practice](#)
- [MSc in Computing](#)
